Genuine Engineering & Trading Services LLC

About Us

GETS LLC provides construction and maintenance services for residential, commercial and industrial sites. We are reputed as delivering high quality works on schedule and competitive pricing.

We provide professional services from upper management to field staff matching global standards with local sensibilities.

As a leader in the construction field we contribute to both economic and social progress wherever we operate by delivering superior quality work.

Genuine engineering and trading services LLC comprehensive services as a single or multi service engineering contractor for both small and large projects. We are organized into: Electro - mechanical, MEP, Civil & ELV system.

Vision & Mission

- ✔ A strong focus on input and efficient manpower planning and utilization.
- ✔ Continuous improvement.
- ✔ Excellence.
- ✔ To improve the levels of proactive management information and reporting.
- ✔ Integrate various administrative, HR and back office functions.
- ✔ Be committed to building an organization driven by the passion in executing challenges and contracts in any capacity with best practice of quality, safety, integrity, and self-satisfaction.
- ✔ To design and construct buildings by applying the latest industrialized building technologies in the world.
- ✔ To provide our clients cost effective engineering solution with emphasis on quality.

Company Organization Chart

A visual chart that represents the structure of a company. It highlights how teams and departments are organized, the reporting relationships across the organization, and every individual's role and responsibilities.

Health, Safety & Welfare

The Company recognizes that high standards of Health, Safety and Welfare are an integral element of efficient business management objectives and contribute to the operational efficiency and profitability of the Company. For such standards to be achieved, adequate financial and physical resources are made available, thereby ensuring continuing development of employees and the provision of necessary expert advice.

Health & Safety is a management responsibility of equal importance to production and quality; thus managers will pursue progressive improvements in health & safety performance by establishing and maintaining control, communicating the necessary information, encouraging co-operation between individuals and groups thereby ensuring that a positive health & safety culture is promoted and developed.

Safe and healthy work methods and conditions are adopted and provided.

-  All statutory requirements are observed and are treated as the minimum standards to be applied to all work activities.
-  Employees are made aware of potential hazards and the precautions to be adopted, by providing information, instruction training and supervision.
-  Steps are taken to identify the immediate and underlying causes of work related injuries and implement any preventive action necessary.

This policy is reviewed and developed periodically to ensure it remains effective and any necessary amendments are communicated to all employees.

The Environment

As one of the country's leading mechanical, electrical and public health contractors, we believe we have a major role to play in reducing threats to the environment.

We will meet or exceed all relevant Government and local subsidiary requirements relating to protecting the environment.

We believe that every individual and organization has a legal and moral responsibility to protect its environment.

As a leading independent specialist in engineering services, we have a major role to play in maintaining awareness and employing effective environmental controls.

We conform to, or exceed, the requirements of all relevant legislation governing waste disposal, toxic emissions, conservation and pollution. We employ practices, which reduce the impact of pollution and environmental disruption through all our business activities, whilst striving to improve the efficient use of the world resources.'

With the threat of pollution and environmental disturbance in mind, we continually examine, monitor and consider all our activities to ensure that we provide quality service without detriment to the environment.

Any employee who willfully acts to the detriment of the Group Environment Policy may be subject to Company Disciplinary Procedures.
